## **DETAILED ACTION**

Applicant has cancelled claims 4, 6, 9-10 and 14. Claims 1-3, 5, 7-8, 11-13 and 15 are currently pending.

### ***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.
2. Claims 1-3, 8 and 11-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Glick (4,063,110) in view of Balkwill et al. (4,408,695).

Glick teaches an electrical box comprising:

a bottom (see figs. 1 and 2);

a plurality of adjacent walls;

a top hingedly joined to a top edge of one wall;

at least one conductor opening 25 adjacent to the top edge for receiving at least one conductor; and

the opening being at least partially defined by the top when the top is closed.

Glick teaches the claimed invention except for the “frangible portion” (please see Response to Arguments below).

Balkwill et al. teaches an electrical box 10 (fig. 1) having frangible portion 48 to be “removed from the opening where needed or desired” (col. 2, line 60) to provide conductor opening to the box 10.

It would have been obvious to one of ordinary skill in the art at the time of the invention to provide the electrical box of Glick with the frangible portion as taught by Balkwill et al., since the frangible portion of Balkwill et al. would provide the electrical box of Glick with easily removable conductor opening as needed or desired.

Regarding claims 2 and 3, the top is unitary with a top edge of the sidewall (see fig. 1) by a hinge, the hinge being a living hinge.

3. Claims 5, 7, 13 and 15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Glick in view of Balkwill et al. as applied to claims 1 and 8 above, and further in view of Erickson (5,245,507).

Glick and Balkwill et al. teach the claimed invention except for the opening and the open box perimeter including a pliable seal.

Erickson teaches providing a seal 34 (fig. 3) for an opening to an electrical box. It would have been obvious to one of ordinary skill in the art at the time of the invention to provide the opening of Glick and Balkwill et al.'s box with the pliable seal as taught by Erickson. Since the pliable seal of Erickson would provide the box of Glick (and Balkwill et al.) with weather resistance (see abstract of Erickson).

#### *Response to Arguments*

4. Applicant's arguments with respect to claims 1-3, 5, 7-8, 11-13 and 15 have been considered but are moot in view of the new ground(s) of rejection.

Applicants, in Remarks, dated June 17, 2004, have pointed to page 7 of the specification where the "frangible portion" is intended to be frangibly separated opening for a conductor.

Applicants argue Glick does not disclose such “portion.” New grounds of rejection address the claimed “portion.”

*Conclusion*

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
